

Newsletter No 1: September 2023

Welcome to the first of our new regular charity updates which aims to give those who support Fulfilling Futures more information about the work that is being carried out as well as community news. Florence Lakemba, our sponsorship co-ordinator, is responsible for creating these newsletters which we aim to send out on a quarterly basis.

Thank you so much for your ongoing support and donations.

Sewing Project Success

This month children in classes P4 – P7 (aged 10 – 13) have been busy developing their sewing skills. They were challenged to make some bangles, sunhats, hair scarfs and masks. Look at their amazing results!

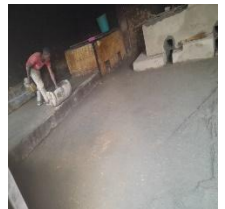

Parents' Meetings

Each term Florence meets with families to support them to develop their parenting skills. At the last meeting the Fulfilling Futures Child Protection policy was shared and discussed with parents and guardians. Florence has been pleased with the outcomes of the meeting and the care that families are showing the children.

Sometimes Florence visits families to give additional support – recently this has been to support children who have shown some challenging behaviors at home.

Kitchen Renovation

At Archbishop Kiwanuka School – the kitchen is being renovated to ensure high standards of health and hygiene as well as to support all children.

Photocopier

The new photocopier at St John Leonard's has really helped teachers to effectively manage their time in class rather than produce lots of handwritten work. This has had a huge impact on the children – thank

you to everyone who continues to support Fulfilling Futures projects.

Visits by the trustees

Last month, Chloe Gilbert and Amanda Easton came to visit St John Leonard's and Archbishop Kiwanuka School. They were so impressed by everything that they saw – the children were super friendly, working so hard and loved sharing their achievements and skills with the trustees.

Safer school

With a grant given by Fulfilling Futures, walls have now been erected all around St John Leonard's to ensure the site is secure and safe for all the children and staff included. Local tradesmen were used to complete the project and support local employment opportunities.

End of term exams

At the end of each term children in both schools complete tests to assess their learning. Currently the children are taking tests for the end of term 2 - there are three academic terms altogether running from January to December.

Express highway

Big changes are happening in Mpigi and Nakirebe with a new express highway being built that will lead to Entebbe. The children have been discussing the pros and cons of the new highway in the Social Studies Classes.
